Comments

i wish we had more synchronous meetings

Office hours really aided in my learning in this course. With this personalized access to help, I was able to better complete the assignments to create something I was proud of.

I enjoyed the mix of having individual meetings and class as a whole group. I never felt overwhelmed with the amount of time I had to dedicate to online meetings for this class.

I really appreciated the mix between classes and one-on-one meetings. I thought that they made a hard and long process of research very approachable and reasonable, and oftentimes class never went past 2 hours. I thought they were very fair balancing this class with the demands of other classes

Course Comments

What would you like the instructor and university administrators to know about your experience in this course?

Comments
it was kind of overwhelming. lots of imposter syndrome
I really appreciated the additional help that was offered in this course. The professors were eager to encourage us and support the students. Dr. Coyne went above and beyond to make herself available to answer my questions– this made a large impact in my experience in this course!
I found the course to be incredibly interesting, and I appreciated the willingness of the professors to help us in our research process.
I think this course is a great way to introduce nursing students to the field of healthcare/nursing research.
Kim and Dr. Coyne made this process as easy on us as possible. I had nothing short of a great experience, and this is largely due to the compassion and competence they both so consistently exhibited.
Kim is amazing! She is so encouraging and really helped throughout the semester.
Loved this course!! Both instructors set guidelines for every assignment submitted, and I had a good understanding of how to pace my project throughout the semester. They were readily accessible for all students and never did I feel ashamed or afraid to set up an additional meeting. It was obvious that both instructors wanted all the students to be successful in the course, and I'm grateful for their feedback throughout the semester. They really ensured that my project was on track and streamlined.

Dr. Acquaviva made it clear at the beginning of the semester that she was committed to creating an environment that was open and welcoming of everyone. I definitely felt this, as I felt comfortable offering my own thoughts and got the sense that other people in the class felt the same.
Dr. Acquaviva was open to all of our questions and concerns, and she was respectful to everyone.
Dr. Acquaviva always was very welcoming of my ideas and those of my classmates. She made it clear that no idea was a stupid idea, and she was supportive of everyone's thought processes and project topics.
Kim is an incredibly approachable professor who truly values the student. She has been very accommodating and reasonable, as well as understanding of our workload in other classes. She has also greatly availed herself for additional support and meetings. She encourages participation of any kind and is respectful of any viewpoint that is brought up in class.
Kim is wonderful! She made everyone feel welcome and was a pleasure to see in class every day.
